## INFORMATION PRESSE

### KODAK AT THE OFFSHORE RACE IN OOSTENDE (Belgium)

---

Dear Press people,

Kodak will be providing a scanning and transmission service during the "OFFSHORE RACES IN OOSTENDE".

Service will be in place from September 9 till September 12 included.

We will be using Micropone software and Zmodem. Receiving end has to have PC or MAC using Zmodem. We will also be using Picture Press and JPEG compression for the images to be send.

From our Mac based system we also will be able to send images into any Electronic Picture Desk using DIT 3.2 protocol.

We will be pleased to meet you at the KODAK point in the press center.

Sincerely,

Chers amis de la Presse,

Lors des "Courses Off-shore d'Ostende", Kodak assurera un service de scanning et de transmission.

Le service sera opérationnel du 9 au 12 septembre inclus.

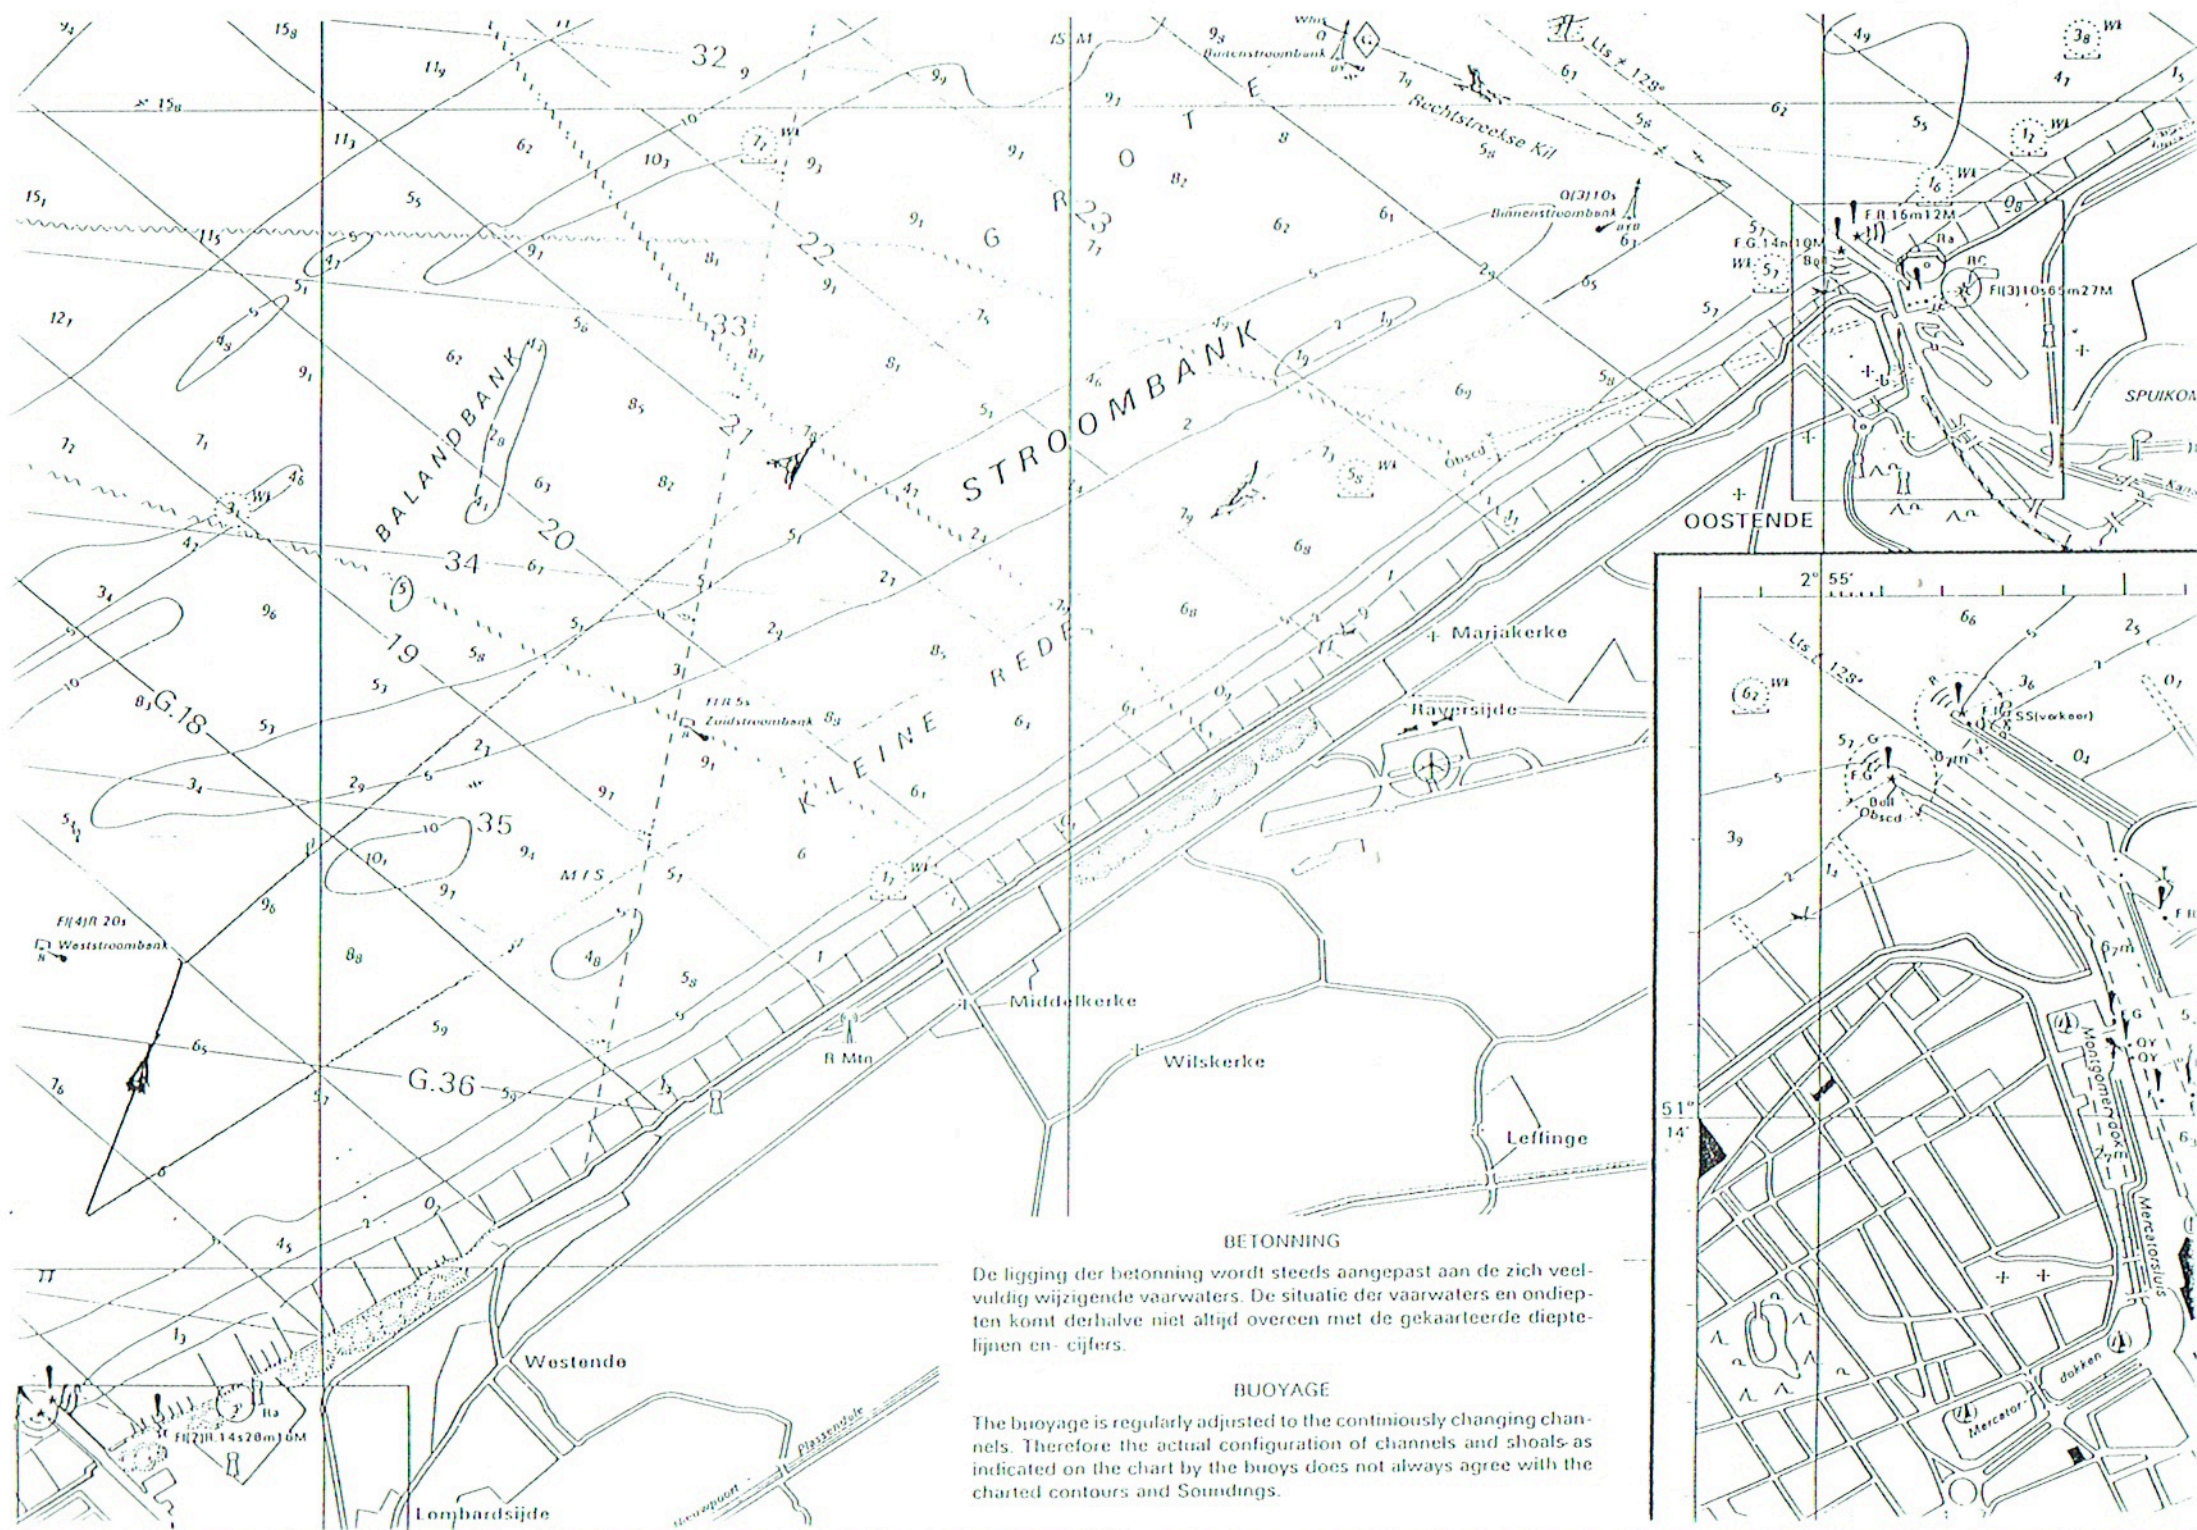

Nous utiliserons le logiciel Micropone et un Zmodem. A la réception il faudra un PC ou MAC avec Zmodem. Nous ferons en outre usage de Picture Press et de la compression JPEG pour les images à transmettre.

Au départ de notre système basé sur MAC, nous serons également en mesure de transmettre des images à tout Electronic Picture Desk utilisant le protocole DIT 3.2.

Espérant avoir le plaisir de vous rencontrer à la permanence Kodak du centre de presse, nous vous présentons nos salutations les meilleures.

Hans ZANDVLIET

HZ/FP/250-WPF/1

**BETONNING**

De ligging der betonning wordt steeds aangepast aan de zich veelvuldig wijzigende vaarwaters. De situatie der vaarwaters en ondiepten komt derhalve niet altijd overeen met de geкарteerde dieptelijnen en cijfers.

**BUOYAGE**

The buoyage is regularly adjusted to the continuously changing channels. Therefore the actual configuration of channels and shoals as indicated on the chart by the buoys does not always agree with the charted contours and Soundings.
